

Amidst the hullabaloo of newly-wedded bliss, it's easy to miss all of the endearing quirks, shedded tears, abandoned heels, questionable dance moves and friendly reunions that made up your day. It really is wonderful, therefore, to feel safe in the knowledge that someone has preserved those magical snapshots in time for you. Well, look no further, because that person is Julian. With over a decade of experience facilitating and photographing events, you are in very safe hands.

Julian goes above and beyond to curate the most beautiful depiction of your day possible - from stunning detail shots to charming candids of your loved ones together in one room. After all, these are the photos that will bring colour to your bare walls for many, many years to come.

Book Julian and make them beautiful.

WHAT OUR COUPLES SAY

“Julian was fantastic from the moment we booked.

From the first meeting; discussing the style of photos we wanted, through to also helping us with sound equipment, to being friendly, fun, accommodating and – most importantly – incredible with the photos taken, we couldn’t have asked for more.

We’re so happy with the photos we’ve received. We’ll cherish them...”

“We had Julian at our wedding in March. He was brilliant throughout the whole process.

Listened to the photos we wanted and then it was if he blended into the background, taking natural and extremely good quality photos, capturing every moment of our big day.

All our family commented how good he was. I highly recommend him!”

WHAT TO EXPECT

From the first contact, you'll be impressed by Julian's professionalism. Before your wedding day Julian will take the time to talk you through your day to understand your vision for each part and guide you to make sure you make the most of each moment.

Julian will help you choose the best times to set aside to give you time together to capture the portraits that will adorn your walls for years to come, while not taking you away from your guests for longer than necessary.

On your Wedding day, Julian will be on hand to keep you calm and relaxed as your day progresses, while supporting you and making sure your day runs smoothly. Throughout all of this, he will be carefully observing as the moments unfold to pick the best angles and light to use to capture the love and emotion for you to look back on.

Julian is a quick and experienced photographer and can create a range of creative portraits to depict your love for each other. His friendly, relaxed and confident style makes him a welcome addition while he accompanies you both through your day.

AFTER YOUR WEDDING

After your wedding day, your photos and video will be professionally edited by Julian to make sure that they are all nothing less than perfect. This process usually takes between 4 to 8 weeks (depending on the package you select) so a carefully curated selection of highlights will be provided within 48 hours to share with your family and friends to celebrate your day.

All of your photos and your videos will be shared with you in a beautifully styled online gallery. From this gallery you can download or share individual photos or the whole gallery.

With the full day package, your photos will then be carefully placed into a design for your photobook to re-tell the story of your day so you can relive the emotions of each moment.

Once the draft design has been produced, Julian will talk you through the prepared pages so you can make any changes required before the memories are committed to print for you to keep.

The albums are available in a range of materials, colours and styles and Julian can guide you through these options.
